Sausage Ice Cream?

Anyone for ice cream? What flavour do you like? Vanilla, chocolate, strawberry or...sausage? Sausage? Yes, you read correctly. There's a new ice cream in Britain in two different flavours: bangers (sausages) and mash (mashed potatoes). Well, it looks like a new ice cream, but actually this is a hot snack served in a traditional ice cream cone. A British food company called *Aunt Bessie*, famous for producing traditional British food such as apple pies and chips, has launched *the Mash Cone* and *the Banger Cone*. After wet and cold summers in Britain, when the ice-cream was not sold very well, they found there was a place in the market for a hot snack. And so *the Mash Cone* and *the Banger Cone* were born. So, if you're ever in Britain, it's a wet and windy day and you would like something to eat, forget the vanilla ice and try a hot *Mash Cone* instead!
